

DINESH KUMAR

Full Stack Developer | WordPress & Elementor Expert | Python & Django

boxerdinesh88@gmail.com | +91 7827484657 | Jhoripur, North East Delhi | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Associate Software Engineer with 1+ year of hands-on experience building scalable web applications and internal business tools for international and enterprise clients. Proficient in Python, Django, React JS, JavaScript, MySQL, WordPress, and Elementor. Skilled in developing responsive UIs, designing RESTful APIs, managing databases, and delivering custom WordPress/Elementor solutions and asset-management platforms. Leverages AI tools (ChatGPT & Claude) to enhance development efficiency and problem-solving.

TECHNICAL SKILLS

Languages & Frameworks:	Python, Django, React JS, JavaScript, HTML5, CSS3
CMS & Page Builders:	WordPress, Elementor (Custom Widgets, Theme & Plugin Customization)
Databases & APIs:	MySQL, RESTful APIs
Tools & Productivity:	Git / GitHub, AI Integration (ChatGPT, Claude AI), Prompt Engineering

PROFESSIONAL EXPERIENCE

Associate Software Engineer — Energyforge Equipments & Engineers LLP, Ghaziabad *Aug 2026 – Present*

- Working as an Associate Software Engineer, contributing to full-stack software development for the company's engineering and operations tools.
- Developing and maintaining internal web applications using Python, Django, and React JS in a professional, production environment.

Full Stack Developer — Creative Squadz, Delhi NCR *May 2026 – Aug 2026*

- Built and maintained full-stack web applications and WordPress/Elementor websites for clients.
- Delivered live project: happyhomeic.com

Full Stack Developer (Freelance) — ProAce International, New York *Jan 2025 – Apr 2025*

- Developed and maintained full-stack web applications using Python, Django, and React JS for international clients.
- Built custom WordPress websites with Elementor, including theme customization, custom HTML/CSS widgets, and plugin integration.
- Designed responsive front-end interfaces with HTML5, CSS3, and JavaScript ensuring cross-browser compatibility.
- Architected and consumed RESTful APIs with Django for seamless client-server communication.
- Managed and optimized MySQL databases; identified and resolved performance bottlenecks.
- Delivered 6+ live client websites across real estate, industrial, and service sectors.
- Integrated AI tools (ChatGPT & Claude AI) into development workflow, improving delivery speed and code quality.

PROJECTS

Inventory Tool — Vendor Expense & Asset Search System inventorytool.pythonanywhere.com

Django + React JS | PythonAnywhere — Full-stack inventory tracking tool that analyzes vendor-wise expenses and lets users search assets by name to quickly identify which vendor or item category is driving the highest costs.

Asset Inventory System — Real-Time Asset & Certificate Tracking assetinventorys.pythonanywhere.com

Django + React JS | PythonAnywhere — Real-time asset management system tracking current asset location, certificate expiry alerts, and returns/damage records for complete asset lifecycle visibility. Built with Django REST Framework + React JS, deployed on PythonAnywhere.

Karigarr Jewels — Gemological Certification System gtlrc.com

Django + React JS | PythonAnywhere — Full-stack gemological certification management system with secure certificate generation, gemstone records management, and admin dashboard. Built with Django REST Framework + React JS, deployed on PythonAnywhere.

Spartakus Insurance — Insurance Services Website spartakusinsurance.com

WordPress + Elementor | Insurance Sector — Professional insurance services website with trust-driven design. Custom Elementor layouts for service listings, quote request forms, and conversion-focused CTAs with optimized page speed.

Happy Home IC — Interior & Construction happyhomeic.com

WordPress + Elementor — Conversion-optimized landing page with responsive layout and modern UI. Clean section-based architecture with service highlights, portfolio showcase, and contact form integration.

Silver Sandstone Hospitality — Luxury Travel & Hospitality silversandstonehospitality.com

WordPress + Elementor — Premium hospitality website featuring destination grid UI with hover effects, animated transitions, responsive breakpoints, and luxury aesthetic with scoped CSS for Elementor compatibility.

Navsandhya Tapes — Industrial Tape Manufacturer navsandhyatapes.co.in

WordPress + Elementor — Custom product category filtering, ISO 9001:2015 certification section, and animated brand logos marquee. Gold/cream palette with scoped CSS for Elementor HTML widget compatibility.

Phagendrababu Library — Library Management Platform phagendrababulibrary.in

Next.js + Django REST Framework — Full-stack library platform built with a Next.js front end and a Django REST Framework backend, with the REST API deployed as a separate service.

Greenmont greenmont.in

WordPress + Elementor — Custom WordPress website with responsive design and modern UI, built and deployed independently.

Website Performance Optimization — Jessica Yaffa & Practical Recovery jessicayaffa.org · practicalrecovery.com

WordPress / Web Maintenance — Performed code-level optimization and performance tuning to improve page speed and site responsiveness.

AC Repair Service — Appliance Repair itdservicecenter.online

WordPress + Elementor — Custom 4-card service-process section with hover effects, scoped CSS, and blue brand theme. Step-by-step service flow UI and how-it-works sections.

Event Directory — Event Management Platform eventdirectory.pythonanywhere.com

Django + MySQL — Role-based dashboards, OTP verification, and Google OAuth authentication.

Shining Services India — Business Website shiningservicesindia.com

Django + MySQL — Dynamic business website with Django backend, responsive UI, and integrated contact forms.

Gym Website

HTML5 / CSS3 / JS — Modern responsive gym website with smooth scroll animations and mobile-first design.

Parking Web App boxerdinesh88-png.github.io/parking-web

HTML5 / CSS3 / JS — Real-time slot tracking and booking system with interactive UI.

EDUCATION

BA (2nd Year) <i>School of Open Learning, Delhi University</i>	2025 – Present
Full Stack Python Development <i>DUCAT Institute, Noida</i>	2024
Intermediate (XII) — CBSE <i>GMSBV Shahdara, Delhi</i>	2021
High School (X) — UP Board <i>SFCS Loni Rampark</i>	2019

KEY STRENGTHS

Problem Solving | Clean & Scalable Code | Quick Learner | Team Collaboration | Communication | WordPress Customization
